

In 2014, the Life Extension Advocacy Foundation was established as a 501(c)(3) non-profit organization dedicated to supporting the development of advanced biotechnologies seeking to cure age-related diseases and engaging the public about the exciting possibility of ending these diseases.

In 2015, we launched Lifespan.io, the first nonprofit crowdfunding platform focused on aging research, in order to enable the general public to directly aid research efforts. To date, we have successfully supported six research projects aimed at investigating aging and developing therapies to treat age-related diseases.

> www.lifespan.io

In 2016, we launched our news and educational website bringing you the latest biotech news, interviews with leading researchers, and articles explaining the processes of aging and the social benefits of controlling them. We also run the monthly livestreamed Journal Club, in which Dr. Oliver Medvedik explores the latest research papers.

> www.leafscience.org/blog

This year, we have created the Longevity Investor Network, a group focused on identifying promising new biotech startups, reviewing their concepts and business models, and connecting them with potential investors.

> www.leafscience.org/longevity-investor-network

Finally, we have introduced the Lifespan Heroes, monthly patrons who support our advocacy and promotional work. The Lifespan Heroes are the driving force behind our progress, and, in return, we offer event discounts and other perks. Consider becoming a Lifespan Hero and supporting us as a monthly patron so that, together, we can end age-related diseases sooner!

ENDING AGE-RELATED DISEASES

INVESTMENT PROSPECTS & ADVANCES IN RESEARCH

THURSDAY JULY 12TH 2018 | 8:30 AM - 6:45 PM EDT

COOPER UNION | FREDERICK P. ROSE AUDITORIUM
41 COOPER SQUARE | NEW YORK, NY 10008 UNITED STATES

PROGRAM

8:30 AM Networking

- 9:15 AM The Emerging Longevity Biotech Landscape**
Keith Comito - Lifespan.io
- 9:30 AM Keynote - Rejuvenation Biotechnology: Finally Not Just a Field but an Industry**
Dr. Aubrey de Grey - SENS Research Foundation
- 9:55 AM A Few Words from Sponsors**
- 10:10 AM Mechanisms of Lifespan Control**
Dr. Vadim Gladyshev - Harvard Medical School
- 10:30 AM Aging as Meta-disease**
Dr. Antonei Csoka
- 10:50 AM Longevity Mechanisms: Lessons from Long-lived Mammals**
Dr. Vera Gorbunova - Rochester Aging Research Center

11:10 AM Coffee Break 1

- 11:35 AM Aging Research and Silicon Valley's Role in Advancing our Understanding of the Aging Process**
Steven A. Garan - University of California, Berkeley National Laboratory
- 11:50 AM Aging Happens by Default**
Dr. Alvaro Macieira-Coelho - INSERM
- 12:10 PM The Current State of Aging Research Panel**
Panelists: Dr. Aubrey de Grey, Dr. Oliver Medvedik, Dr. Vadim Gladyshev, Steven A. Garan, Dr. Vera Gorbunova
- 12:50 PM How Specifically Should Entrepreneurs Focus on Aging?**
Joe Betts Lacroix - Y Combinator / Vium

1:10 PM Lunch

- 2:00 PM Hayflick Rewound: Somatic Restriction, Epigenetics, and the Reversibility of Human Aging**
Dr. Michael West - AgeX Therapeutics
- 2:20 PM Exploring a Gut-stable Antibody Mimetic for Parkinson's Disease**
Kelsey Moody - Ichor Therapeutics
- 2:40 PM The Rationale for and Clinical Potential of Thymus Regeneration**
Bobby Brooke - Intervene Immune
- 3:00 PM Translating Aging Research Panel: Bottlenecks and the Role of Venture Philanthropy/Family Offices**
Panelists: Ramphis Castro, Dr. Aubrey de Grey, Keith Comito, Dr. James Peyer, Joe Betts Lacroix, Dr. Mark Hammond
- 3:40 PM Treating Aging and Cancer Using Novel SENSolytic™ DNA Therapy**
Stephen Hilbert - Oisin Biotechnologies
- 4:00 PM Catalytic Antibodies for Age-Associated Amyloid Disease**
Dr. Sudhir Paul - Covalent Bioscience
- 4:20 PM A Portfolio Approach to Longevity**
Dr. James Peyer - ApolloVC

4:40 PM Coffee Break 2

- 5:05 PM Startups in the Aging Sector - Challenges Faced Panel**
Panelists: Dr. Michael West, Dr. Sudhir Paul, Kelsey Moody, Bobby Brooke, Stephen Hilbert, Reason
- 5:40 PM Closing Remarks**
Keith Comito

5:55 PM Break, Networking, Drinks
